

ALLEGHANY 4-H 2018 FALL PLANT SALE

GRAPES

\$15 per plant		
{3 gallon container}	Quantity	Total Cost
Concord Blue: Blue globes "frosted" with white, exceptionally sweet fruits for eating fresh or juice and jelly. Ripens in early fall.		
Catawba Red: Popular red variety that is exceptionally vigorous; a very sweet taste that makes it ideal to serve fresh on the table for juice and wine; ripens late September to early October		
Niagara White: Very sweet taste, terrific for fresh eating, jelly or making your own wine. Ripens mid to late September.		
Subtotal		

RASPBERRIES

\$7 per 1 quart pot OR \$10 per 6 quart pot		
	Quantity	Total Cost
Cumberland Black Raspberry: Produces medium-large, blue-black berries with an outstanding raspberry flavor. Good for eating fresh, or making jams and jellies. Ripens July - August.		
1 QUART POT		
6 QUART POT		
Latham Red Raspberry ~ Produces good quantities of large, firm, juicy, red fruit, very good either fresh or frozen. Ripens mid-June.		
1 QUART POT		
6 QUART POT

BLACKBERRIES

\$7 per plant		
	Quantity	Total Cost
Navaho (Thornless): Glossy black berries, sweeter and firmer than previous thornless varieties, with smaller seed size. Very winter hardy. This patented variety requires little maintenance. No wires or trellis needed. Ripens early to mid June.		
Arapaho (Thornless): Eager growers, early producers. These tall, erect canes yield extra-tasty blackberries with exceptionally small seeds. New canes come up from the roots to increase productivity. Summer-bearing floricanes. Early to mid-season. Ripens in mid June. Self-pollinating.

BLUEBERRIES

When planting blueberries, it is recommended to plant at least 2 varieties to ensure cross-pollination.

\$15 per plant		
{3 gallon container} 5' tree-size	Quantity	Total Cost
Climax: (Rabbiteye Type) Early ripening, produces medium-size berries with sweet flavor. Plants are upright with intense green foliage. One of the very best for harvesting.		
Southland: (Rabbiteye Type) Ripens in late June and is a wonderful mid-season selection. Tend to be sweeter than other mid-season rabbiteye blueberry varieties. Produces very large quantities of blueberries		
Tifblue: (Rabbiteye Type) Mid-season ripening, produces medium to large berries with good color. Plants are semi-upright with moderately vigorous growth. *Self-fertile*		
Subtotal		

FLOWERS

\$6 per plant		
	Quantity	Total Cost
Baby's Breath Ground Cover (White): beautiful bedding plant that can fill your garden area with tiny clouds of white showy flowers		
Candy Tuft (White): Excellent edging plant for borders, paths or walkways, rock gardens or sprawl over a wall. Interesting ground cover for small, sunny areas.		
Coral Bells: Make wonderful edging plants and put on a show when planted in groups. Grow well in woodlands, rock gardens, containers, borders and as ground covers. The leaves are evergreen, even when covered in snow.		
Flowering Cabbage: An ornamental plant that is perfect for a cool-season garden; brings bold shades of white and purple.		
Flowering Kale: An ornamental plant that is perfect for a cool-season garden; brings bold shades of white and purple.		
Japanese Pachysandra (Green, Variegated): Ground cover for shaded areas. Excellent selection for shaded areas under shallow-rooted trees.		
GREEN		
VARIEGATED		
Vinca: Very fast growing, trailing vine that grows green and white leaves and blooms with delicate violet trumpet like flowers. Will not climb surfaces, but can be strung over wires or other such mediums; Good ground cover.		
Subtotal		

FRUIT TREES

\$18 per tree		
{5-7 foot in 3 gallon container}	Quantity	Total Cost
Montmorency: Large, bright red cherries with a tart flavor, perfect for your favorite recipes. Self-fertile

FRUIT TREES, CONT'D.

APPLE

\$18 per tree		
{5-7 foot in 3 gallon container}	Quantity	Total Cost
Arkansas Black: Deep crimson, almost-black fruit. Firm and crisp apples are perfect for baking and apple butter. Juices well, for homemade cider. Flavor improves after being in storage & keeps for long periods. Cold-hardy. Ripens in October. Needs two pollination partners		
Fuji: Sweet, crisp, juicy and aromatic. Fruit keeps up to 12 months when refrigerated. Ripens in late October. Needs a pollination partner of a different variety nearby		
Gala: Delectably sweet-tart, good for fresh-eating apple and cooking; stores well. Ripens in early October. Partially self-fertile, but a nearby pollination partner of a different variety is beneficial.		
Granny Smith: Crisp bite and sweet-tart flavor. Perfect for fresh-eating, baking, and making cider. Fruit keeps up to six months in proper storage. Heat-tolerant. Ripens in late October. Self-fertile and does not need a pollination partner, but fruiting will usually be improved if there is a compatible partner of a different variety nearby		
Stayman: Dessert apple. large, firm, wine-spicy fruit with a deep red color. Stores well. Cold-hardy. Ripens in mid-October. Needs two pollination partners nearby which must both be of <i>different</i> varieties or a single self-fertile pollination partner		
Subtotal		

FIG

\$18 per tree		
{5-7 foot in 3 gallon container}	Quantity	Total Cost
Brown Turkey: Fruit is delicious fresh and in preserves. Tree needs protection when temperatures drop below 10°F. Needs minimal pruning. May yield 2 crops. Grows well in containers; Heat-tolerant. Ripens in June. Self-pollinating.		
Subtotal		

PEACH

\$18 per tree		
{5-7 foot in 3 gallon container}	Quantity	Total Cost
Elberta: Most popular of all peaches. This yellow freestone is juicy, ideal for eating, canning and freezing. August harvest. Self-pollinating		
Georgia Belle: Juicy-sweet fruit is best used for fresh-eating, canning, and desserts. Disease-resistant to bacterial leaf spot and brown rot. Freestone. Ripens in late August. Self-pollinating.		
Subtotal		

PLUM

\$18 per tree		
{5-7 foot in 3 gallon container}	Quantity	Total Cost
Bruce: Wine-red medium to large fruit that ripens in late May to June. Sweet and semi-acidic; can be used for canning or in desserts. Should be planted near other plum trees to be pollinated and produce fruit.		
Subtotal		

HERBS

€6 per plant		
	Quantity	Total Cost
Agastache (Hummingbird Mint) ~ An essential to a pollinator friendly garden; a showy, fragrant group of perennial herbs. Excellent resistance to browsing deer and rabbits.		
Basil (African) ~ This variety overwinters indoors, producing fragrant leaves year-round for cooking or ornamental use. Uses: pesto, soups, salads and dishes containing tomato, squash, beans, chicken, fish or red meat.		
Catnip ~ Use in teas; fragrance for cats.		
Chives (Onion): Source of vitamin A. Lends a delicate onion flavor. Uses: Appetizers, cream soups, fish, salads, egg and cheese dishes, sauces		
Lavender ~ Gives off an intoxicating perfume; Ideal for culinary use because it's rich in essential oils. Uses: Continental cuisine, baking, teas, jellies, sugars, salts		
Lemon Balm: Mint-like leaves, also called balm. Sweet, lemon flavor with a citrus scent. Uses: Jams and jellies, salads, soups, teas		
Mint (Chocolate): Leaves smell and taste like mint and chocolate. Used like any mint plant in drinks, salads, desserts, sauces or as a garnish.		
Mint (Curly) ~ Used in drinks, salads, desserts, sauces or as a garnish. Attractive to butterflies; fragrant		
Mint (Grapefruit) ~ Bright green leaves boast a taste that resembles spearmint with a twist of unsweetened grapefruit. Use fresh or dried leaves for garnish or in beverages, fruit salads, dessert		
Mint (Peppermint) ~ Used in drinks, salads, desserts, sauces or as a garnish. Attractive to butterflies; fragrant		
Mother of Thyme ~ Commonly known as Creeping Thyme. An easily grown, spreading thyme variety. It is excellent planted as a lawn substitute or among stepping stones. Just like other thyme varieties, creeping thyme is edible with a flavor and aroma akin to mint when crushed or steeped for teas or tinctures.		
Oregano: Strong, aromatic with a pungent "pizza" flavor. Uses: Fish, meat, poultry, tomato sauces; Greek, Italian and Mexican recipes		
Parsley: Delicate, slightly peppery taste. Uses: Sprigs used as garnish, herb mixtures, sauces, soups, stews.		
Rosemary ~ Sweet, hint of lemon and pine. Uses: Casseroles, fish, fruit salads, lamb, chicken, soups, stuffings, tomato sauce		
Sage ~ Musty, minty, slightly bitter, "sausage" flavor. Uses: Chicken, duck, goose, pork, sausages, stuffings
